

# State of Mind

**STATE OF MIND** is the Nom de Guerre of Kim Bonfils, a Danish keyboard player and multi-instrumentalist, with a long career as songwriter and musician on the Danish art rock scene.

His solo project **STATE OF MIND** merges the classic singer-songwriter tradition and minimalist electronica with a distinct retro flavour. Songs with an off-beat edge reminiscent of Serge Gainsbourg or Daniel Johnson are set in an unusual and synthetic soundscape – evoking Kraftwerk and Brian Eno.

Kim Bonfils handles all instruments and programming, creating a simplistic, often drum-less sound, carried mainly by synthesizers and vocals.

The songs of **STATE OF MIND** explore the complex workings of the human psyche. From the eye-opening epiphanies to the destructive thought patterns that turn us into helpless bystanders to our own lives.
